

Fred

Humidifier

Stadler Form[®]
SWISS DESIGN SINCE 1998

FRED gets up steam!

Ceramic coated heating element

Very quiet operation with two speed levels

When it gets colder outside, we heat our homes: the relative humidity falls. We, our furniture, plants and furnishings suffer in this dry environment. To counteract this Fred gets up steam – making us feel comfortable again. Fred is clean – because the steam is free of minerals and bacteria. With metal plated feet, Fred's feet are firmly on the ground.
